

MICE TRAINING AND EDUCATION™

” TAKING THE TECH OUT OF TECHNOLOGY”™

The following are student comments with praise for not only Debbie's passionate expertise but also her ability to teach a technical subject in way anyone can grasp.

"EVERYONE WHO USES A COMPUTER SHOULD TAKE THIS COURSE! You owe it to yourself to acquire this valuable information, and we all owe it to each other to be responsible Internet users. Thank you for offering this important course. "

I loved this course and have several friends planning to take it in the future. The Instructor was very informative and helpful when I had questions about certain subjects and responded very quickly. She performed very professionally and courteously. I would recommend her to any student."

"I appreciated this course. I didn't think too much about the insecure nature of my laptop connections in public places. I now know that I need to make major changes in how I connect to the Internet."

"A course like this one gives you a good background in a very short time."

"The course was really informative, I didn't have a clue about PC Security when I started the course. Now, I consider myself very knowledgeable on the topic. The instructor's writing style was simple to understand but very informative. I would definitely take other courses written by this professor."

"The course was very helpful to me. I got a great deal out of the course. The instructor provided a great many very helpful resources as well as a check list to help keep on top of computer security. That was more helpful than I can say. I am very grateful for the opportunity to take this on-line course. I think they are a great way to go for a busy person who wants to improve themselves."

"Very, very beneficial; Resources provided will be helpful on an on-going basis. The instructor has a passion for her subject!"

"What a fantastic course. It has really made me stop and think about the nitty and gritty of my computers. No more using just the default settings on my security settings!"

"Very educational and informative. Timely and up-to-date!!!"

"I thought Debbie did a wonderful job. She made a difficult subject a lot easier to understand. She had a simple way of explaining a complex subject and it works!"

"If any other instructor taught this course, I don't believe I would have understood NEARLY as much of this very LARGE body of information that is so unfamiliar to me. She does a phenomenal job in translating all things technical to an easy to understand format for those of us who are so challenged by this subject matter! I would take another course from her just because she teaches it!"

"Great Course...I am 69 years old, and still trying to learn about computers...Didn't realize that there was so much to PC Security... Nice meeting you Debbie and keep up the good work."

"This course has made my decision to further my interest in pc security for possible future employment. I have learned so much from you these past 6 weeks. I will definitely be recommending your course to friends and relatives."

"Besides learning a lot of valuable information regarding how to maintain the security of my PC, I also enjoyed the instructor's writing style and especially her positive and friendly attitude! Thanks for a great class!"

"I didn't just learn from this course; I enjoyed it. I believe that is a direct result of the instructor's teaching style, interaction, expertise and knowledge."

"Exceptionally marvelous instructor who made the course content challenging, yet easy to understand with her analogies. Incredible!"

"Very helpful for anyone using the internet. I highly recommend it!"

"This course was excellent. Every lesson kept me interested. The assignments taught me very useful things to be done on my computer. The material is challenging, and I expect to want to review it many times in the future. The instructor demonstrated that she really knows her stuff!!!"

"Your lessons are so educational and I already got my money's worth. Thanks!"

"This course is great - this is exactly is what I was looking for. Debbie is without a doubt an expert in her area; and her writing style is above excellent which makes the subject is much easier to learn."

"This should be an obligatory course for everyone. Very informative!"

"Excellent Course; Covered a lot of topics that were relevant to me at home and at work. I hope that there will be another course offered by Debbie in the future."

"I was very impressed with each lesson and the amount of knowledge presented. I was also taken with the expertise of writing style and examples of explaining in detail. I just retired from 32 years of teaching and I found Debbie to be very refreshing. Her teaching style showed the intellect, humor, patience and compassion for Internet Security. Thank you for sharing."

"Debbie, Thank you for an interesting an informative class. You are obviously very knowledgeable in this field. I have been an IT auditor for 3 years and recently passed my CISA exam.... My problem is I learn by doing and seeing, rather than reading. That's how this class helped me. I was able to see the results of the assignments. Anyway, thanks again for a great class."

"EXCELLENT!! EXCELLENT!!! EXCELLENT!!!! Instructor was most helpful and informative. THANKS VERY MUCH!!!! "

"To Instructor Debbie: Someday we'll be saying "All the World's an Internet Stage, and all the people in it merely connected by secure WiFi Networks" When that day comes, a loud applause can be given you for your contributions to making a secure cyberspace for all - many thanks."
